

Environmental Management Policy

1. Policy Statement

MVR Rivermount Construction Ltd is committed to minimising the environmental impact of its operations and promoting sustainable practices. We aim to operate in a way that complies with relevant environmental legislation and reflects the principles of ISO 14001:2015, the international standard for environmental management systems.

2. Legal and Regulatory Compliance

We will comply with all applicable environmental laws and regulations, including:

- Environmental Protection Act 1990
- Control of Pollution Act 1974
- Waste (England and Wales) Regulations 2011
- Other site-specific or local authority requirements as applicable

3. Environmental Objectives

Our key environmental goals include:

- Minimising waste and promoting reuse and recycling
- Efficient use of energy, water, and materials
- Reducing pollution, noise, and dust from construction sites
- Selecting eco-friendly suppliers and sustainable materials
- Raising awareness of environmental responsibilities among staff and subcontractors

4. Responsibilities

Management is responsible for ensuring this policy is implemented and reviewed. All employees and subcontractors are expected to follow site-specific environmental practices and report any environmental issues or risks.

5. Continuous Improvement

We are committed to continuously enhancing our environmental performance by regularly reviewing our practices, setting realistic growth-aligned targets, and ensuring compliance with evolving legal and regulatory requirements.

6. Review and Communication

This policy is reviewed annually and communicated to all staff, subcontractors, and stakeholders. A copy is available upon request and may be included in tenders, company documents, or displayed in office/site areas.
